Energetics
Wireline Selective Firing Systems
Titan’s history of experience and a dedicated distribution network in many of the major oil and gas fields provides you with technology you need today.
Hunting provides products and services to the world’s leading national, international energy companies and oil service companies enabling the extraction of oil and gas. Manufacturing and sales locations are located in the key energy producing regions of the world.

Proprietary Technology
Hunting owns and develops proprietary patented products with a full range of applications below the wellhead including mud motors, premium connections, well perforating, logging and intervention tools.

Geographic Footprint
In strategic locations around the world Hunting owns and operates plants, properties and equipment employing people to serve its global customers with local services and products.

Quality Assurance
It is essential that products and services provided by Hunting are designed and manufactured to conform to the agreed API, proprietary licensor, or other specification of the customer, meeting their needs and expectations the first time, every time.

It is the policy of Hunting that only the highest quality products and services, that meet all specification requirements, are provided to customers. Hunting operates a corporate Quality Management System covering all worldwide locations.

Health, Safety and the Environment
Hunting is committed to achieving and maintaining the highest standards of safety for its employees, customers, suppliers and the public. All Hunting business units consciously operate in a manner that includes environmental matters as an integral part of its business plan.

Hunting’s aims are no accidents, no harm to people, and no damage to the environment.

The Hunting goal is “Total Customer Satisfaction”.

Health, Safety, Environment and Quality Assurance
Hunting is committed to working safely in an environmentally responsible manner. These principles are fully integrated within our Quality Management System that defines the company’s global operations.
